# UF FLORIDA

# **UF Connections in South Africa**

South Africa is situated at the southern tip of Africa. Its capital city is Pretoria. The US State Department estimates its total population at 54,300,704. Information about travelling to South Africa is on the <u>Department of State</u> website. The <u>Center for Disease Control and</u> <u>Prevention</u> also has useful travel information on their website.

With the most developed and diverse economy in Sub-Saharan Africa, South Africa (SA) has become a global player in world affairs. The University of Florida has remained committed to establishing numerous academic connections and collaborations with South African institutions.

## Visiting Students, Scholars & Researchers

For the 2014-2015 academic year, UF hosted ten South African students and scholars.

### **UF Students in South Africa**

During the 2014-2015 academic year, 65 UF students studied abroad in South Africa.

As of Spring 2016, UF does not have reciprocal agreements with South African universities.

Reciprocal agreements are the foundation for the exchange programs in which so many UF students are involved. In an exchange program, students pay UF tuition and are assigned UF course equivalencies for the work they do abroad. Reciprocal agreements provide for the equal exchange of students between UF and an international accredited institution. Agreements are typically valid for three years initially and can be renewed through a signed addendum, if both parties agree. For information on establishing a reciprocal agreement in South Africa, visit <u>http://ufic.ufl.edu/Agreements-RecipProcedures.html</u>.

### **Cooperative Agreements**

Cooperative Agreements are broad declarations of intent for the promotion of exchanging faculty and students as well as the exchange of academic and research information. These agreements are generally valid for five years, with the possibility of renewal if both parties agree. The Cooperative Agreements UF has with South African institutions can be found below, with the full list of agreements available at: <a href="http://ufic.ufl.edu/Agreements.html">http://ufic.ufl.edu/Agreements.html</a>.

#### **Highlights**

### • UF study abroad programs in South Africa

The University of Florida hosts several study abroad programs in South Africa; the two spotlighted in this brief focus on entrepreneurship and conservation:

- Entrepreneurship and empowerment study abroad program in Cape Town This study abroad program through the Warrington College of Business gives undergraduate and graduate students the opportunity to work with entrepreneurs in townships around Cape Town. Under the supervision and mentorship of three faculty members, the students work on teams with South African students to assist small businesses improve their sustainability.
- Political economy of conservation study abroad program
  This study abroad program allows students to spend a summer in South
  Africa learning about the political economy of conservation and gain field
  research experience.

• UF researchers study park conservation and climate change in Southern Africa Drs. Jane Southworth (Geography), Brian Child (Geography), and Greg Kiker (Agricultural and Biological Engineering) have led this research project which focuses on addressing the specific issues of parks management under different potential climate scenarios for Kruger National Park, South Africa. The project researches the effects of management efforts and climate change on the conservation of species of concern. Research teams visited Kruger last summer (2015) and will return to the region in summer 2016 to continue their work.

• Center for African Studies Associate Director researching bicycle racing in SA Dr. Todd Leedy is currently researching the history of cycle racing among South Africans and how individuals and communities created social spaces around this sport during the decades of intensifying segregation and apartheid.

#### • African Studies Quarterly

The African Studies Quarterly is an academic journal that is published by the African Studies Department here at UF. The journal includes academic articles on all topics related to Africa and is a resource to find scholarly work on Africa.

#### **Research Projects:**

Below is a table of funded research projects with an international component involving South Africa.

Funded Research Projects						
Principal Investigator (PI)	PI department	Project title	Funding agency/Sponsor	Project funding		
William	Clinical	Four-Arm RCT Of Brief Mi	National	\$1,094,732		
Latimer	Psychology	Vs. Couples-Based Hiv/Sti	Institutes of			
		Prevention In South Africa	Health
